Ethiopian

## Profile

Dynamic Software Engineer with project experience in developing robust REST APIs and implementing secure authentication protocols, such as OAuth. Proficient in multiple programming languages, including Java, Python, and JavaScript, with a strong foundation in both front-end and back-end development. A commitment to excellence in software maintenance and a dedication to continuous learning enhance the ability to deliver high-quality solutions. Eager to contribute technical skills and innovative problem-solving capabilities in a challenging software engineering role.
